

Who are we?

The Innovation Delivery Team lead and support a variety of projects in Adult Social Care. We work in an integrated manner with the people we support, the workforce and our partners:

Supporting user-led Innovations

Delivering change that matters

Working as one **Team** to better outcomes for the people in Kent

We are **brave**, we do the right thing, we accept and offer challenge.

We are **curious** to innovate and improve.

We are **compassionate**, understanding and respectful to all.

We are strong together by sharing knowledge.

We are all **responsible** for the difference we make.

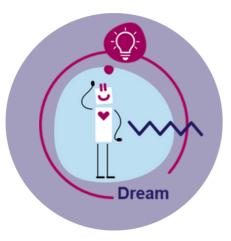

How we work

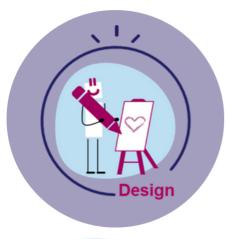

What is working well and what could be improved?

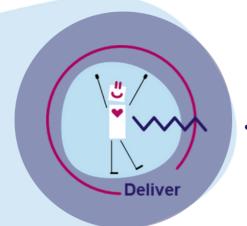

What else might be possible?

What would good look like and why is it worth pursuing?

How will we test our solution(s) and know that they work?

What solution(s) will we deliver?

Let's do it!

Let's implement our solution(s).

Our Team

Portfolio Management Office

Portfolio Management Office Manager

Portfolio Management Office Analysts

Portfolio Management Office Officer

Project Support

The team has a number of **roles** that support the delivery of our projects.

Project Management

Senior Project Managers

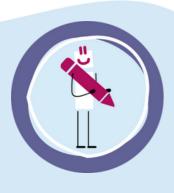

Project Managers

Senior Project Officers

Project Officers

Project Support

We also recruit **specialist roles** as part of our projects, to test and drive new innovations.

Stakeholder Engagement

Part of our team focuses on Stakeholder Engagement, which seeks to actively encourage the people of Kent to become more involved and coproduce new innovations in Adult Social Care.

Examples of Our Projects

The Kara Project

At the beginning of the Covid-19 pandemic, the team worked closely with partners Alcove and Rethink to implement a rapid rollout of **Kara** devices. These are video carephones which can make voice and video calls, set reminders and prompts, and be installed remotely. This technology enabled virtual care to be delivered, minimising face to face contact and limiting 'hands on' care to essential tasks only. They also enabled people to maintain social contacts and personal relationships, mitigating the risk of social isolation throughout the pandemic.

At the Health Tech Digital Awards, the Kara project came **first** in the 'Best COVID-19 Solution for Safeguarding the Vulnerable' category.

Our Strategy

In line with the Strategic Reset of the council, the team worked alongside subject matter experts to co-produce <u>Making a</u>

<u>Difference Every Day: Our Strategy for Adult Social Care</u>

<u>2022 to 2027</u>. The aim was to work with people in Kent and all our partners to turn our ambitions into reality.

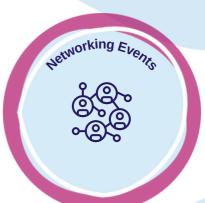

Technology Enabled Care

Putting in place an innovative technology enabled care offer (e.g. social care and health apps and wearable technology) that empowers a person and supports them to maintain or improve their independence, safety and wellbeing with greater choice and control.

Development and Wellbeing

We aim to retain talent by having clear development opportunities within our team, to help grow our own.
