

## Kent County Council

### Job Description: *Analyst Officer*

---

<b>Directorate:</b>	<b>Chief Executive's Department</b>
<b>Unit/Section:</b>	<b>Strategy, Policy, Relationships and Corporate Assurance</b>
<b>Grade:</b>	<b>KR9</b>
<b>Responsible to:</b>	<b>Analytics Manager</b>

### **Purpose of the Job:**

As an Analyst Officer, you will be part of the Kent Analytics team within the Strategy, Policy, Relationships and Corporate Assurance division of KCC.

You will work on analytical projects that provide actionable insight from a wide range of services to support evidence-based decision-making at KCC. You will: collect, clean and analyse datasets to identify trends and patterns; communicate the results of your analysis through data visualisations, reports and dashboards; collaborate with various stakeholders to provide analytical support; and identify opportunities to enhance data quality and accuracy.

Evidence-based decision-making is a priority for the council. This role will require you to work on key analysis projects; working with colleagues across KCC and partner organisations to provide advice, guidance and support in respect of data-driven insight.

### **Main duties and responsibilities:**

- Contribute to research and analytical projects; understand and deliver on project requirements; draft project specifications; provide regular progress reports to Analyst Managers and clients where appropriate; work with KCC colleagues and external partners.
- Analyse and interpret complex data from a range of sources to identify key findings; use data quality, validation and linkage techniques to ensure accuracy and completeness of data; create clear and compelling data visualisations; use appropriate analytical techniques and research methods for the project.
- Produce clear reports (including written and dashboard-type reports) for a variety of audiences; communicate key findings in a clear and actionable manner.
- Undertake continual professional development; stay updated on the latest data analysis tools, techniques and technologies.
- Work collaboratively with other members of the team, fostering a culture of creativity, collaboration, and innovation.
- Contribute to the integration of new data science platforms and techniques for data analysis and data integration into the work of the Analytics team (e.g. R, PowerBI).

Footnote: This job description is provided to assist the job holder to know what their main duties are. It may be amended from time to time without change to the level of responsibility appropriate to the grade of post.
