

Directorate:	Growth, Environment and Transport
Unit/Section:	Highways, Transportation and Waste
Grade:	KR10
Responsible to:	Active Travel Infrastructure Team Leader

Purpose of the Job:

The post holder will work as part of a cross cutting team to investigate, design or commission and deliver innovative highway improvement schemes particularly related to Active Travel, Developer funded and Integrated Transport schemes with the purpose of tackling congestion, reducing pollution and improving public health. They will have a very good understanding of Highway Engineering (particularly Cycle Infrastructure Design - LTN 1/20) and be an excellent communicator and able to work with a wide range of stakeholders.

Main duties and responsibilities:

1. Carry out the design, have early contractor involvement (ECI) and contract administration/ site supervision of new highway schemes. Work with the internal stakeholders in relation to the Technical Approval process.
2. Work closely with KCC Members and other key stakeholders (District Councils/Parishes/Cycling Groups/Emergency Services, Bus Operators etc) to identify appropriate innovative and safe highway improvements which meet the County Council's policies.
3. Attend meetings including KCC committee/district/parish meetings when appropriate and assist with the preparation of reports for meetings in a timely manner.
4. Preparation of Health and Safety Plans, risk assessments, programmes, Utility information, manage scheme budgets and produce high quality job packs with early contractor engagement to ensure that all works on site are carried out in a safe manner and in accordance with Health & Safety policies and good practice.
5. Undertake meaningful and timely consultation on schemes to ensure community buy in working closely with KCC's corporate consultation team when necessary. This may include production of high quality non engineering consultation plans/reports and attendance at exhibitions for certain projects.
6. Undertake the commissioning of safety audits to ensure schemes as designed and built are safe and to respond to any concerns raised.
7. Manage associated Traffic Regulation Orders as part of scheme delivery.
8. Work closely with KCC Property Services and Landowners and provide information/land plans where necessary.

9. Provide information for performance measures and ensure contract and commercial compliance in all elements of work to ensure projects are delivered to the agreed timescale, quality and cost.
10. Manage customer enquiries and ensure timely and high quality responses to Members, the Public, Parish, Town, District and Borough Councils, contractors, utility providers, third parties and emergency services.
11. You will be required to provide assistance to other teams within the GET directorate, or any other part of KCC, from time to time as and when your skills and knowledge are required for particular projects and initiatives.
